The COVID-19 pandemic has significantly impacted research activities at the University of Virginia (UVA). Here are some key statistics from August 27:

- **$102,855,278** in cost on external proposals
- **89** sponsors on external proposals
- **371** people involved across all research activities
- **583** work products across all research activities

### COVID-19 Response: External Proposals by School and Status

- **Accepted**: 87
- **Declined**: 11
- **In Development**: 14
- **Pending**: 6
- **Pending Final Review/Submission**: 2
- **Pending Pre-Closeout**: 1
- **Rejected**: 1
- **Withdrawn**: 1

### Proposals by School

- **School of Medicine**: 116
- **School of Engineering and Applied Sciences**: 11
- **College of Arts and Science**: 8
- **Vice President Provost**: 6
- **Curry School of Education**: 4
- **Frank Batten School of Leadership and Public Policy**: 3
- **Wise School of Data Science**: 3
- **School of Nursing**: 2
- **School of Architecture**: 1
- **McIntire School of Commerce**: 1

### COVID-19 Research Activities

- **Proposal**: 379
- **Publications and Prints**: 103
- **News**: 69
- **Tools and Technology**: 19
- **Awards**: 7
- **Virtual Meeting**: 4
- **Other Products**: 2

### Involvement by Title on Updates and Media

- **Faculty and Staff**: 18
- **Assistant Professor**: 39
- **Professor**: 58
- **Associate Professor**: 48
- **Student**: 7
- **Professor**: 58

The university's research activities related to COVID-19 are diverse, involving multiple schools and departments, and reflecting the interdisciplinary nature of the pandemic's impact on society.
