COVID-19 Response Supplement: Tribal Public Health Capacity-Building and Quality Improvement Umbrella Cooperative Agreement

United States Department of Health and Human Services (HHS)
This is an emergency supplemental funding opportunity announcement in response to the outbreak of Coronavirus Disease, COVID-19.

Closing date: 01 Apr 20
https://pivot.proquest.com/funding_opps/198736

EXTENDED DEADLINE: Open call for innovation – emerging innovations

Ministry of Defence
*** The closing date for this opportunity has been extended. The previous deadline of 31 March has been extended to 1 April 2020. All other call details remain unchanged. This call encourages proposals across a wide range of technology areas with the aim of finding new and novel opportunities for these to be exploited across defence or security. The majority of successful projects cost between £50,000 and £100,000 and last between three and 10 months. ***

COVID-19 grant

British Medical Association
This supports new or ongoing research into COVID-19. The grant is worth £65,000.

Closing date: 03 Apr 20
https://www.researchprofessional.com/funding/opportunity/2501464

Ekstraordinært grand solutions opslag om COVID-19

Innovation Fund Denmark | Innovationsfonden
Coronavirus therapeutics – call for rapid deployment

LifeArc
This supports the identification of therapeutics that can be rapidly deployed to treat COVID-19. The total budget is £10 million.

Closing date: 06 Apr 20
https://pivot.proquest.com/funding_opps/198618
https://www.researchprofessional.com/funding/opportunity/2500743

MRFF – 2020 respiratory medicine clinical trials research on COVID-19

National Health and Medical Research Council
This supports clinical trials to accelerate the implementation of treatments for severe acute respiratory distress in patients affected by COVID-19. The budget is AUD 5 million.

Closing date: 06 Apr 20
https://www.researchprofessional.com/funding/opportunity/2500819

Rapid Response Grant COVID-19 and Its Cardiovascular Impact

American Heart Association (AHA)
Coronavirus infection (coronavirus disease, COVID-19) shows no signs of abating soon. There is an urgent need to better understand the pathobiology and the clinical implications of the viral infection that leads to the morbidity and mortality seen with COVID-19.

Closing date: 06 Apr 20
https://pivot.proquest.com/funding_opps/198802

MRFF coronavirus research response - 2020 antiviral development for COVID-19

National Health and Medical Research Council
This supports research on identifying antiviral candidates targeting SARS-CoV-2 and accelerating promising effective treatments that can be made available to treat Australians infected by SARS-CoV-2. The budget is AUD 8 million.
Development of treatments for COVID-19

US Department of Defense
This supports the development of prototypes aimed to treat COVID-19. The total budget is worth up to USD 20 million, to support up to five projects over eight months.

Closing date: 08 Apr 20
https://www.researchprofessional.com/funding/opportunity/2501559

COVID-19 accelerated access initiatives – Australasian leadership computing grants COVID-19 special call

National Computational Infrastructure
These aim to identify and provide leadership-class computing resources to research projects directly relevant to the COVID-19 pandemic.

Closing date: 08 Apr 20
https://www.researchprofessional.com/funding/opportunity/2501573

COVID-19 funding call

Scottish Government
This supports research aimed at tackling the challenges posed by the current COVID-19 pandemic in Scotland. Grants are worth up to £1.25 million each and last for three to six months.

Closing date: 08 Apr 20
https://pivot.proquest.com/funding_opps/198840
https://www.researchprofessional.com/funding/opportunity/2501597

EXTENDED DEADLINE: COVID-19 pandemic rapid response funding

Health Research Board
*** The closing date for this opportunity has been extended. The previous deadline of 6 April has been extended to 7 April 2020. All other call details remain unchanged. This funding supports research that will provide evidence for
the national and global efforts to deal with the virus outbreak. Grants are worth up to €200,000 each over six to 24 months.***

Closing date: 09 Apr 20
https://www.researchprofessional.com/funding/opportunity/2499884

**COVID-19 extraordinary call for proposals**

**Central European Initiative**
This supports intervention projects related to healthcare and telemedicine, education and e-learning or distant learning and support to Micro, Small and Medium-sized Enterprises. Grants are worth up to €40,000.

Closing date: 09 Apr 20
https://www.researchprofessional.com/funding/opportunity/2502455

**COVID-19 funding call**

**British Society for Antimicrobial Chemotherapy**
This supports researchers in better understanding and addressing the COVID-19 outbreak. Grants are worth up to £25,000, but larger amounts may be considered in exceptional circumstances.

Closing date: 17 Apr 20
https://pivot.proquest.com/funding_opps/198819
https://www.researchprofessional.com/funding/opportunity/2501462

**CITRIS Seed Funding - COVID-19 Response**

**CITRIS and the Banatao Institute**
Given the unprecedented circumstances and disruptions related to the COVID-19 pandemic, CITRIS and the Banatao Institute are soliciting information technology-driven proposals that aim to address the threat across a range of applications.
Small grants for early-career researchers in tropical medicine or global health

Department of Health and Social Care including NIHR
These enable early-career researchers and global health professionals to undertake clinical or scientific research or fieldwork, as stand-alone projects or distinct elements within larger projects. Grants are worth up to £5,000.

Coronavirus Response Fellowship

United States Department of Health and Human Services (HHS)
A research opportunity is currently available with the Center for State, Tribal, Local, and Territorial Support (CSTLTS) at the Centers for Disease Control and Prevention (CDC) in Atlanta, Georgia. CSTLTS seeks to foster deeper engagement between CDC senior leaders and public health leadership from the U.S. territories and freely-associated states.

Notice of special interest – clinical and translational science award programme applications to address 2019 novel coronavirus public health need

NIH: National Center for Advancing Translational Sciences
This supports research on the 2019 novel coronavirus, with a particular focus on the use of informatics solutions to diagnose cases and advancing the translation of research findings into diagnostics, therapeutics and vaccines. The project duration is limited to the remaining active budget period for the parent award.
Call for research on COVID-19

German Federal Ministry of Education and Research | Bundesministerium für Bildung und Forschung
This supports research projects and clinical trials on COVID-19. Grants are worth up to €2 million per project over 18 months.

Closing date: 11 May 20
https://www.researchprofessional.com/funding/opportunity/2493851

NYC COVID-19 Response & Impact Fund

Carnegie Corporation of New York
This supports research projects and clinical trials on COVID-19. Grants are worth up to €2 million per project over 18 months.

Closing date: 30 May 20
https://pivot.proquest.com/funding_opps/198612

Priority access call for work on combating COVID-19

Paul Scherrer Institut (PSI)
On January 30th, 2020, the WHO declared the recent outbreak of coronavirus disease 2019 (COVID-19), a public health emergency of international concern. It declared that there is an urgent need to improve our understanding of the newly identified virus and its possible future evolution as well as to contain the spread; to develop precise diagnostics and treatment, and to improve the public health response and patient care.

Closing date: 09 Sep 20
https://pivot.proquest.com/funding_opps/198823

Travel and subsistence funding to support LMIC engagement during the COVID-19 outbreak

Department of Health and Social Care including NIHR
This provides travel and subsistence funding to appropriately qualified public health professionals, clinicians and academics who wish to offer science and technical advice to support the immediate response to COVID-19 in low and middle-income countries. Funding covers travel, accommodation and meals.
Notice of special interest – urgent competitive revisions for research on coronavirus disease 2019 (COVID-19) and the causative virus SARS-CoV-2

NIH: National Institute of General Medical Sciences
This supports research aimed at better understanding SARS-CoV-2. Funding is provided to expand the scope of the applicant’s active grant.

Closing date: 05 Feb 21
https://pivot.proquest.com/funding_opps/198805
https://www.researchprofessional.com/funding/opportunity/2501567

Notice of special interest – availability of emergency competitive revisions for research on severe acute respiratory syndrome coronavirus 2 and coronavirus disease 2019

NIH: National Institute of Allergy and Infectious Diseases
This supports research on coronavirus disease with a particular focus on viral natural history, pathogenicity and transmission. The maximum project duration is two years.

Closing date: 25 Mar 21
https://pivot.proquest.com/funding_opps/198799
https://www.researchprofessional.com/funding/opportunity/2501569

Notice of special interest – administrative supplements and urgent competitive revisions for research on the 2019 novel coronavirus

NIH: National Institute on Drug Abuse
These provide revision funding to active grants to address research collecting and examining data on the risks and outcomes for COVID-19 infection in individuals suffering from substance use disorders. Supplements are worth up to USD 100,000 each per year for a maximum period of two years.
Urgency grants

Natural Environment Research Council
These support proposals related to the coronavirus outbreak. The maximum total project funding is £65,000 over one year.

Closing date: None
https://www.researchprofessional.com/funding/opportunity/256341

Urgent competitive revisions for research on the 2019 novel coronavirus

NIH: National Institute of Allergy and Infectious Diseases
This supports incorporation of data from the 2019 novel coronavirus into ongoing research efforts to develop predictive models for the spread of coronaviruses and related pathogens. The maximum project period is two years.

Closing date: None
https://www.researchprofessional.com/funding/opportunity/2481052

Emergency response to the coronavirus epidemic in Denmark

Novo Nordisk Foundation | Novo Nordisk Fonden
This supports national projects aiming to mitigate the adverse health effects of the coronavirus epidemic in Denmark. The total budget is worth DKK 50 million and grants are worth up to DKK 5m.

Closing date: None
https://www.researchprofessional.com/funding/opportunity/2499878

COVID-19 resilience innovation project support

Welsh Government | Llywodraeth Cymru
This supports innovative projects that can have a direct impact on how to fight the coronavirus.
COVID-19 rapid call for access to the octopus facility

Science and Technology Facilities Council
This enables researchers to use the Octopus imaging facility for research relevant to the SARS-CoV-2 virus and COVID-19. There are no charges for access to the facility for successful applicants.

Closing date: None
https://www.researchprofessional.com/funding/opportunity/2501821
