## Office of the Vice President for Research

---

The Research Development team at the University of Virginia is a strategic resource for promoting research development across the Grounds. As part of the Office of the Vice President for Research, our mission is to help UVA researchers identify funding opportunities, form effective teams, and develop successful proposals.

We provide services that add value to those of our partners across the Grounds and emphasize support for interdisciplinary research with the ultimate goal of increasing the quality and quantity of externally funded research at UVA.
